Selection of Varieties

The choice of varieties for the "Rock Garden," "New Borders," or "Renewing the Old" ones, is often bewildering to those unacquainted with the height, color, habit, and time of flowering, etc., of the plants and much trouble and disappointment can be avoided by leaving the selection of plants to us, and to plan out the positions they are to occupy. In making these selections we shall be glad to include any particular plants our customer may desire embodied, or, omit any they may already have.

Terms of Sale

We print real prices, which as long as unsold and without engagement we are willing to accept. The prices are net, except being subject to 5 per cent discount when cash accompanies order; otherwise payable in thirty days from date of invoice on approved credit. F. o. b. Sparkill, N. Y. To meet reputable competition, we will reduce our prices still further on being given the opportunity.

Clumps (or plants of extra-large size) can, in most cases, be supplied at double the prices named, which are for ordinary-size plants, field grown for more than one season.
